

Medieval villages and a fascinating lake (C 010 UMB)

A bicycle trip in a region full of surprises

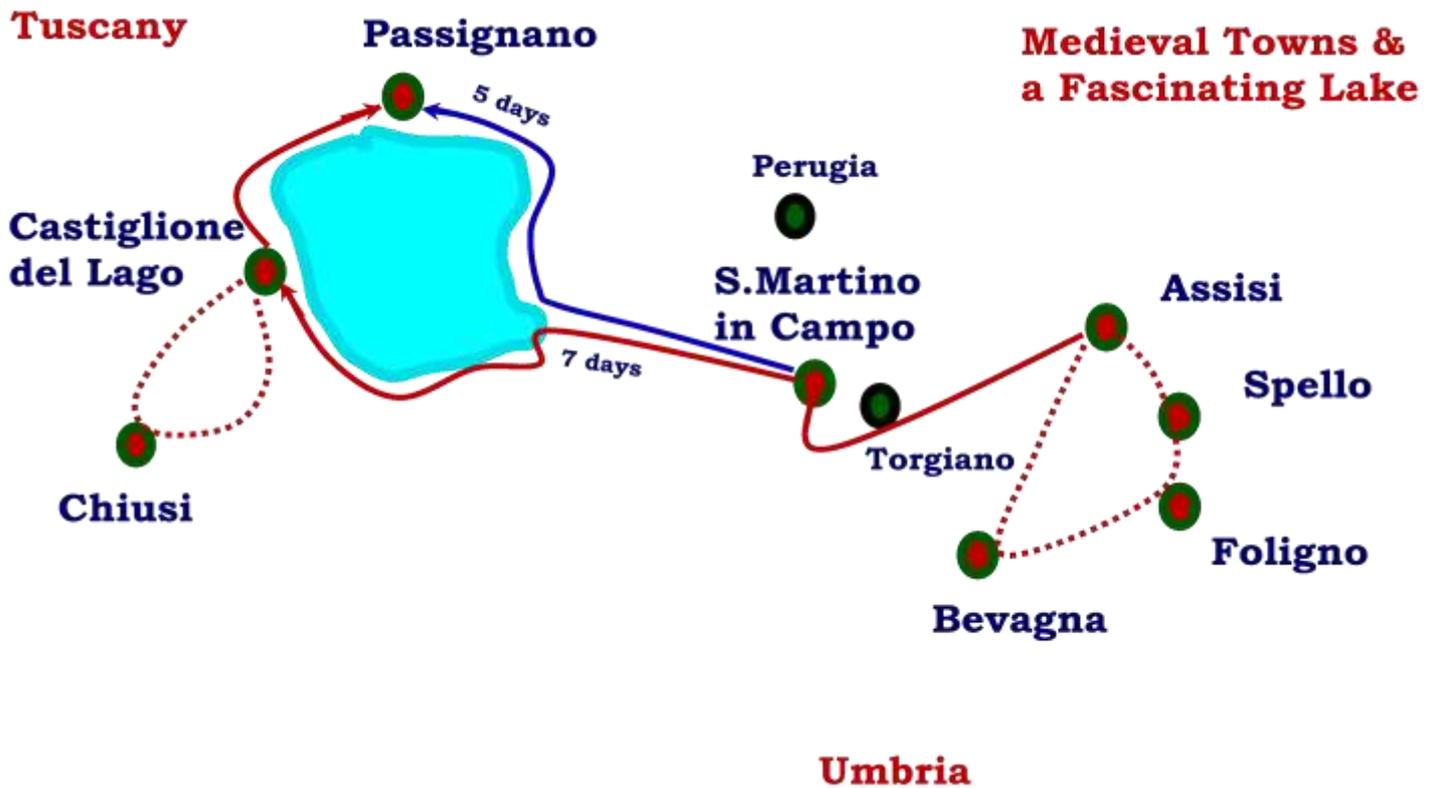

Rediscovering beauty is one of the objectives of this cycling trip, which offers a complete and extraordinary overview of alluring Umbria. The fertile Valle Umbra, rich in water and surrounded by green mountains and hills covered with olive groves and vineyards, is excellent for a relaxing holiday on two wheels. This valley is famous for its medieval towns, because here we find Assisi, Spoleto, Bevagna, Spello and many other villages of considerable interest. Starting from Assisi, where you will surely be fascinated by the medieval monuments and the imposing fortress located in a dominant position over the valley and town.

Walking through a maze of narrow streets, alleys and passing through pretty squares embraced by medieval buildings and wonderful fountains, you will have the feeling of being in the distant past. The first ride will take you to Spello, which you will reach by following a panoramic road between olive groves. Spello, the town of flowers, is of Roman origin and well preserved its medieval appearance. You descend into the Umbrian Valley arriving first in Foligno and then in the medieval town of Bevagna with its welcoming Piazza Silvestri and its two Romanesque churches. Returning to Assisi you will follow part of the Assisi - Spoleto cycle path.

Your journey will continue to Torgiano, a wine town where outstanding wines are made and with an interesting wine museum, and San Martino in Campo, an excellent base for an extra night to visit the fascinating Perugia with its rich Etruscan, Roman, medieval and even Renaissance history by bus.

Back in the saddle, you will reach the beginning of the Perugia-Lago Trasimeno cycle route: you will pedal along it, alternating cycle paths and secondary roads, reaching Castiglione del Lago,

which rises majestically over Lake Trasimeno. You will have a free day for some relaxation on the shores of the lake or you make a loop ride to the Etruscan city of Chiusi. Finally, pedalling along the shores of the lake you will be led to the final destination, the splendid Passignano sul Trasimeno where you can stroll along the promenade, which will give you a breathtaking view over the lake or to visit the island 'Isola Minore', the icing on the cake of this tour through a green Umbria.

Day 1: Arrival at Assisi

Individual arrival in Assisi, a medieval city located on the slopes of Mount Subasio, in a dominant position over the Umbra Valley and a world heritage site. It is a city where history, traditions and art are brought together in harmony. You can already discover Assisi by wandering through the alleys and streets and stop in one of the many squares with bars, which invite you to enjoy an ice cream, a cappuccino or a good local wine. There is so much to see: the Basilica of St. Francis, the Basilica of St. Clare, the castle 'Rocca Maggiore', museums and the Roman Forum. At the end of the afternoon bike fitting and briefing

Overnight stay with breakfast in Assisi

Day 2 Spello - Foligno - Bevagna

After breakfast, immediately in the saddle for the first ride to discover the green Umbrian Valley. You will first reach Spello following the panoramic Via degli Olivi. The city has kept its medieval charm well and you will find yourself in a maze of alleys and cheerful squares colored by flower boxes. Spello is also famous for its Infiorate, organized every year on Corpus Domini.

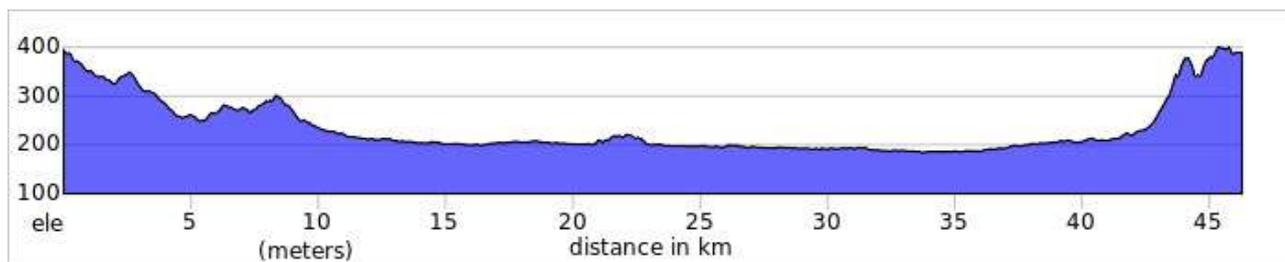

The colored mosaics of petals and flowers are real works of art, made by the inhabitants of the village. Leave your bicycles to visit the historic center on foot passing by the monuments of the city: the church of S. Maria Maggiore, which houses the Baglioni chapel decorated by Pinturicchio, the church of S. Andrea, the art gallery, the Roman mosaics and the Roman Consular gate.

You will resume pedaling in the valley among fields with cereals, sunflowers, vines and olive trees and passing through the welcoming town of Foligno, you will reach Bevagna, a rare example of an Umbrian town built on the plain and not on a hilltop. The town boasts both a Roman past and a typically medieval aspect. Piazza Silvestri is a very interesting square, a lively meeting point for the inhabitants of the city, with its Gothic-style Palazzo dei Consoli and two Romanesque churches. Other sites to visit are mosaics in the Roman bath and a medieval house. You will return to Assisi following a stretch of the Assisi-Spoleto cycle path.

Pedaling along quiet and secondary country roads you will reach Torgiano, an ancient river port, located on a hill surrounded by a landscape of olive groves and vineyards. Excellent wines are produced in Torgiano and it became the first wine-growing area in Umbria to obtain the Doc label for its wines. In the historic center there is the Wine Museum and the Olive and Oil Museum, which are certainly worth a visit. Leaving Torgiano you will have a last short stretch to go towards S. King Porsenna (6th century BC). The city still retains many Etruscan and Roman remains, making it an important archaeological center. Many finds can be seen in the Etruscan Museum. Interesting to visit is the underground city, the labyrinths of winding tunnels that run under the city. In the tunnels there is a rich collection of tombstones. The Cathedral of S. Secondiano is one of the oldest churches in Tuscany. On your return you will pass the Etruscan tomb 'Tomba della Pellegrina' and the 'Tomb of the Monkey'.
