

The world of wines

Hiking through the vineyards of Montefalco & Wine-tasting
code DTW 001 UMB

This Walking Tour with Wine Tasting will be a perfect combination of Nature and taste; what the Umbria region can offer at its best!

A tour overall planned to learn, to create awareness rather than being focused only on walking. The walking tour is suitable for everyone, even families with children (over 6 years old). An environmental guide who will explain the history of the place will accompany you and of the vine that has made Montefalco famous throughout the world: the Sagrantino vine. You will learn to recognize the varieties of vines that are grown in the area, to understand how pruning is carried out and what are the main operations done in the vineyard during the year as well as many other curiosities related to the world of wine. You will be surrounded in every season by beautiful and silent panoramas, immersed in the colors of the countryside waiting to taste the authentic flavors of the area.

The walking tour will take place around a winery near Montefalco, in Umbria, in an extraordinary area surrounded by vineyards and olive groves. The family-run winery produces the main types of Montefalco's DOC and DOCG wines with the most modern sustainable agriculture techniques in an area that has always been perfect for viticulture. After this beautiful walk surrounded by Nature, you will return to the starting point.

In the winery, you will have a tasting of the main Montefalco's wines (by reservation).

Do not miss this exciting experience for the whole family!
